

Laemmegroup opens a new operating site in Lombardia

The **Tentamus Group** is expanding its presence in Italy and opens a new branch of Laemmegroup, located in Manerbio (BS) entirely focused on microbiology testing.

 The new office is located in an area of over 550 square meters and also became a logistics hub for all activities of storage and transit of samples between laboratories of the Group. The strategic position grants an effective service and a wider range of actions.

 The Group's main objective has always been to invest in constant growth thanks to the support of all its stakeholders, starting with the customers who support and trust the company.

**Thinking Global,
Acting Local**
